Re: Surplus/Excess Equipment—Band Instruments

Center Grove High School was approached by the Bands of America to be a sister school with Arsenal Technical HS in IPS. Our band program has identified 42 instruments which will not be used again due to the quality of their intonation, models that we do not use, and/or craftsmanship. Paige's Music reviewed these instruments and worked with another vendor to see what they were worth. The value of these instruments is less than \$5,000.

My recommendation is that the instruments be considered surplus/excess equipment and be transferred to Arsenal Technical HS in order to help their students in need.
