

Need a vaccine? We've got you covered.

With back-to-school and flu season just around the corner, the Center Grove Wellness Center is offering a variety of vaccines for both children and adults. The following vaccines are available:

- **Seasonal flu** (beginning in October) for adults and children
- **Tdap** (Tetanus, Diphtheria, Pertussis) for adults and children (series of two shots)
- **HPV** (Human Papillomavirus) for girls and boys between the ages of 9 and 26 (series of three shots)
- **Meningococcal** (meningitis) for adults and children (two doses)
- **Pneumococcal** (pneumonia) for adults

Vaccines for adults and children (sixth grade through high school) are regularly stocked at the center. **Immunizations for infants and children younger than sixth grade require two weeks' notice prior to a well-child exam.**

If you know your child will need vaccines, call the center at least two weeks in advance of your appointment so that the vaccine can be ordered and ready when you arrive.

Please note that all patients must have an appointment in order to receive vaccines. For more information, contact the Center Grove Wellness Center at **317.882.1222 ext. 1650**. To schedule an appointment online, visit www.centergrove.k12.in.us.
