

2015-2016 SCHOOL IMMUNIZATION REQUIREMENTS

ATTENTION 11TH GRADE PARENTS:

As we approach the final weeks of the school, we encourage you to get a jump start on preparing your child for his/her senior year by updating his/her immunizations. The Indiana State Department of Health has added the following immunization for **all students entering 12th grade**:

- one (1) booster dose of **meningococcal conjugate vaccine (MCV4)**

We want to let you know now so you have plenty of time to schedule an appointment to update your child's immunizations with their medical provider.

You can now view your child's current immunization record on [Skyward Family Access](#) under Health Information.

As of June 1st, the Johnson County Health Department can accept all patients regardless of insurance status. This includes anyone who is fully insured, has Hoosier Healthwise, or is uninsured. Call the Johnson County Health Department at 317-346-4368 for more information.

After your child receives this immunization, please send in or fax a copy of his/her updated immunization record to the school clinic.

Please contact [your school nurse or clinic assistant](#) if you have any questions.

DEADLINE: Students without proof of up-to-date immunizations will NOT be allowed to attend school as of October 1, 2015 until updated records are turned in to the clinic.
